

Vehicle Policy

The Black Lake Conference Center is owned and operated by the UAW. It is our policy to allow only Union made/American made vehicles onsite. This only includes vehicles that are Union made from the USA and Canada. If you have a vehicle at the gate that does not fit this criteria, we have parking facilities just outside the entrance. To see if a vehicle is American/union made, visit www.unionplus.org.

If you are a guest that is staying here and has an import vehicle, you are only allowed to come on center property for unloading your items for your stay and again only when you are departing to load your vehicle for checkout. You are allotted 30 minutes to do this. During your stay, you are not allowed to come and go from the outside lot into the Center to pick things up or drop off. You are only allowed to do this when you check in or check out.
